Letter of Appreciation

The University of Kashmir has yet again proved its metal by achieving 48th position in NIRF ranking. As per the Ministry of Human Resource Development (MHRD), Govt. of India we are now among top 50 Universities of the country under the National Institutional Ranking Framework (NIRF-2020). Improving its rank from 53 to 48, great news for the entire University fraternity after we were re-accredited A+ University in 2019 by the NAAC. I sincerely complement the joint efforts of all the teachers, scholars, students and administrators as well as the non-teaching and technical staff of the University for this mile stone achievement. The outstanding efforts of all the Teachers/Officers involved in the process and to present the contribution of University under different parameters in the right perspective is highly appreciated.

This indeed is a moment of celebration, but surely not of complacency, as we aspire not only to become the University with Potential for Excellence (UPE) but also get recognized with distinction at national and international level. For this the continued and consistent efforts by all the stakeholders are paramount and I hope that you all will continue to work harder to take this institution to new heights. While being conscious of our strengths, we need to specifically focus our attention on the loopholes and weaknesses; we need to plug them, to ensure even better ranking in future. I assure all possible academic and administrative support, whatsoever required, in this regard.

I once again congratulate you all and solicit your cooperation to make the University of Kashmir as first choice for the students amidst the competitive environment, locally and globally.

With best wishes
